

Crane Truck

Mercedes Benz flat tray truck with crane

Tray size: 6.4 x 2.45m
(can carry a 20foot container)

Load capacity: 6.5 tons

Crane: Ferrari 197-3

Crane load torque: 182 kNm

Korevaar's Crane Truck is capable of transporting:

- a standard 20 foot container (TEU)
- one of the company's 6m Steel pontoons
- two of the company's 6m Aluminium pontoons

As well as moving the company's pontoons and equipment, the Crane Truck is used by marine contractors and engineering companies throughout the Melbourne metropolitan area.

In the past two years the Crane Truck has been used to transport, amongst other items:

- generators
- anchor chains and windlasses
- gangways
- engines
- a screw elevator
- bunker hoses
- lifeboats
- steel plate and rod
- engineering parts
- a ship's rudder for repair
- conveyor units
- shipping containers
